

Fall's Hottest Products For Parents & Their Kids
Oct. 20, 2009, 7:22 a.m. CT
'Metroplex Baby' co-founders Barbara Arnoldin and Tina Wysk take a look at the fall's hottest products from pregnancy to pre-school.

"In this morning's Baby Buzz we're taking a look at the hottest products all the way from babies up to preschool for fall. Once again we're joined by our friends Barbara Arnoldin and Tina Wysk from MetroMoms Events."

"The Best and Hottest are things that make you go 'Oh, I wish I had that when I had children,' or 'This is going to make my life so much easier.'"

"OK, what do you have over here?"

"I want to start with the Alphabotz, the Superphonic Decoder Cards. Now, I don't know how many people use flashcards with their kids. They're static, they don't encourage learning."

"But this is a fun, interactive way to learn and you become engrossed in the story. And these are just hitting Dallas stores today, and they're fantastic."
